10 · Secretions/Excretions Logic

Applies to nasal discharge, sputum, stool, vaginal discharge alike.

Color	White	Yellow
Consistency	Thin, clear, watery	Thick, sticky

		Green or dark blue	Wind

Gate Reached	Severity
Wind Gate only	Mild illness / exterior pathogen
Qi Gate	Interior condition, stronger illness
Life Gate	Severe illness
Past Life Gate to tip	Life-threatening

Recognition Traps — Common Miscalls

Trap	Correct Discriminator
Red throat = always excess	Chronic, dry, NOT swollen red throat can be Yin-deficiency empty heat instead
Open mouth = always excess	Open + fever/thirst = excess heat. Open + SOB/frothy sputum = Lung deficiency with phlegm
Purple lips = only cold	Purple can also mean Blood stasis (stabbing pain) — check for cold signs vs. stasis signs to distinguish
"Slow movement + cold" = Yin deficiency	It's Yang deficiency. Yin deficiency causes HEAT signs (five-center heat, night sweats), not cold
Any yellow finding = heat	Yellow = damp/deficiency in general; only bright/orange yellow leans heat-predominant. Dull/dark yellow leans cold-damp
Nail bed blanch test: any return = normal	Immediate return = sufficient Qi/Blood. SLOW return = exhaustion of Qi/Blood — the speed is the diagnostic, not just "does it return"
Eye wheel Kidney = Right Chi pulse Kidney	Separate systems. Eye Water Wheel (pupil) = Kidney, but Right Chi PULSE position = Pericardium/San Jiao, not Kidney
Left/right cheek = your left/right as viewer	Su Wen 32 uses the PATIENT'S own left/right. Face-forward pictures are mirrored — patient's left is on your right

Heads Up — Quiz Move — For every local sign, work it in this order: color/shape → thermal nature → excess/deficiency → organ/channel → one confirming symptom. This is the same 5-step logic tested across every section in this kit.

12 · Constitutional Types (Flagged)

Heads Up — Scope conflict: Prof. Lao's recorded lecture says "Nothing on the body constitutions" will be tested. Prof. Schrier's own deck devotes ~9/41 slides to it. Confirm with him which governs the quiz.

Weak vs. Strong Constitution (Ling Shu 54)

Marker	Weak	Strong
Eyes/nose/ears/mouth	Close together	Well-proportioned
Space between eyebrows	Small	Broad forehead/glabella
Nose	Narrow, flared	Straight, well-formed
Philtrum	Short	Long
Cheeks	Thin	Full, normal luster
Jaw	Flat, sunken, narrow	Strong, even, smooth
Ears	Small, short lobes	Long, long lobes
Muscles/skin	Flabby, loose	Firm

Cause of Weak Constitution	Five-Element Body Types (Ling Shu 64)		
Parents' general health			
Health at time of conception	Element	Physical	Personality
Mother's health during pregnancy	Wood	Green complexion, small head, long face, broad shoulders, tall, sinewy	Superior talent, hardworking, survives sickness
Parental age/pregnancy events (stress, trauma, drugs/alcohol/smoking)	Fire	Red complexion, small head/hands/feet, curly/little hair, walks fast+sways	Frivolous w/ wealth, passionate, impulsive, curious

Heads Up — Constitution is not fixed: Pre-Heavenly (Jing) essence is the basis; Post-Heavenly Qi (diet, herbs, acupuncture, *yang sheng*) can improve it.

	Earth	Yellow complexion, round face, big head, wide jaws, large abdomen	Dignified, calm, unassertive, likes helping people
	Metal	Pale complexion, square face, flat abdomen, strong voice	Honest, upright, rational, leadership aptitude
	Water	Dark complexion, big head, wrinkles, round body, swaying gait	Laid-back, unafraid, tendency to deceive, always moving

Quick Recall: Wood=tall/hardworking. Fire=curly/impulsive. Earth=round/calm. Metal=square/honest. Water=dark/deceptive.
