

Pulse & Tongue

Practice Journal

50 Entries · Clinical Observation Log

Entries 1–25 due at Midterm (Week 5) · Entries 26–50 due at Final (Week 10)

脈舌診

Journal Requirements & Due Dates

Entries 1–25 → Due at Midterm (Week 5) | **Entries 26–50** → Due at Final (Week 10)

Grade Weight: 10% of total course grade

Each entry: Date · Subject (self/partner/patient) · Tongue observation · All 6 pulse positions · Qualities · Pattern impression

PULSE 脈

A diagram of the abdominal cavity, outlined in black. The interior is divided into regions by dashed lines. At the top, a curved dashed line separates the upper abdominal region from the lower. The upper region is labeled "KIDNEY, BLADDER, INTESTINES". The lower region is further divided by two vertical dashed lines. The central area is labeled "SPLEEN" and "STOMACH". The left side (viewer's left) is labeled "LIVER / GALLBLADDER". The right side (viewer's right) is labeled "LIVER / GALLBLADDER". At the bottom, a curved dashed line separates the lower abdominal region from the pelvic region. The area just above this line is labeled "LUNG". The bottom-most area is labeled "HEART".

PULSE 脈

A diagram of the abdominal cavity, colored pink, showing the locations of various organs. The organs are labeled in black text: KIDNEY, BLADDER, INTESTINES (top); LIVER / GALLBLADDER (left and right sides); SPLEEN and STOMACH (center); LUNG (bottom center); and HEART (bottom center). Dashed lines outline the boundaries of these organ groups.
