### How to use this journal

One full page per entry. **50 entries total** — 1–25 due at the Midterm (Aug 7), 26–50 due at the Final (Sep 11). Record time of day and season on every entry: both change the pulse independently of pathology.

### Positions used here: Nan Jing 難經

This journal uses the **Nan Jing** six-position map as taught by Prof. Schrier — the full twelve-channel pairing, not the Su Wen nine-region scheme and not the simplified Kidney-Yin / Kidney-Yang shorthand.

**LEFT:** Cùn = SI/HT · Guān = GB/LR · Chǐ = BL/KD

**RIGHT:** Cùn = LI/LU · Guān = ST/SP · Chǐ = TB/PC

### Before you palpate

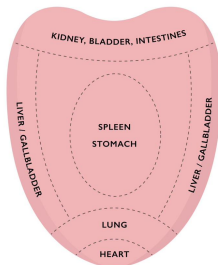

Ask permission every time. Let the subject settle — recent exertion, cold, or a heavy meal will move the pulse. Count rate against **your own** breath. Your right hand reads their left wrist; your left reads their right.
