Recognition Traps — Common Miscalls

Trap	Correct Discriminator
Red throat = always excess	Chronic, dry, NOT swollen red throat can be Yin-deficiency empty heat instead
Open mouth = always excess	Open + fever/thirst = excess heat. Open + SOB/frothy sputum = Lung deficiency with phlegm
Purple lips = only cold	Purple can also mean Blood stasis (stabbing pain) — check for cold signs vs. stasis signs to distinguish
"Slow movement + cold" = Yin deficiency	It's Yang deficiency. Yin deficiency causes HEAT signs (five-center heat, night sweats), not cold
Any yellow finding = heat	Yellow = damp/deficiency in general; only bright/orange yellow leans heat-predominant. Dull/dark yellow leans cold-damp
Nail bed blanch test: any return = normal	Immediate return = sufficient Qi/Blood. SLOW return = exhaustion of Qi/Blood — the speed is the diagnostic
Eye wheel Kidney = Right Chi pulse Kidney	Separate systems. Eye Water Wheel (pupil) = Kidney, but Right Chi PULSE position = Pericardium/San Jiao
Left/right cheek = your left/right as viewer	Su Wen 32 uses the PATIENT'S own left/right. Face-forward pictures are mirrored

Heads Up — Quiz Move — For every local sign, work it in this order: **color/shape → thermal nature → excess/deficiency → organ/channel → one confirming symptom**. Same 5-step logic tested across every section in this kit.

12 · Constitutional Types (Flagged)

Heads Up — Scope conflict: Prof. Lao's recorded lecture says **"Nothing on the body constitutions"** will be tested. Prof. Schrier's own deck devotes ~9/41 slides to it. Confirm with him which governs the quiz.

Weak vs. Strong Constitution (Ling Shu 54)

Marker	Weak	Strong
Eyes/nose/ears/mouth	Close together	Well-proportioned
Space between eyebrows	Small	Broad forehead/glabella
Nose	Narrow, flared	Straight, well-formed
Philtrum	Short	Long
Cheeks	Thin	Full, normal luster
Jaw	Flat, sunken, narrow	Strong, even, smooth
Ears	Small, short lobes	Long, long lobes
Muscles/skin	Flabby, loose	Firm

Cause of Weak Constitution
Parents' general health
Health at time of conception
Mother's health during pregnancy
Parental age/pregnancy events (stress, trauma, drugs/alcohol/smoking)
Heads Up — Constitution is not fixed: Pre-Heavenly (Jing) essence is the basis; Post-Heavenly Qi (diet, herbs, acupuncture, <i>yang sheng</i>) can improve it.
