Recognition Traps — Common Miscalls	
Trap	Correct Discriminator
Red throat = always excess	Chronic, dry, NOT swollen red throat can be Yin-deficiency empty heat instead
Open mouth = always excess	Open + fever/thirst = excess heat. Open + SOB/frothy sputum = Lung deficiency with phlegm
Purple lips = only cold	Purple can also mean Blood stasis (stabbing pain)
"Slow movement + cold" = Yin deficiency	It's Yang deficiency. Yin deficiency causes HEAT signs, not cold
Any yellow finding = heat	Yellow = damp/deficiency in general; only bright/orange leans heat
Nail bed blanch: any return = normal	SLOW return = exhaustion of Qi/Blood — the speed is the diagnostic
Eye wheel Kidney = Right Chi pulse Kidney	Separate systems. Right Chi PULSE = Pericardium/San Jiao
Left/right cheek = your left/right	Su Wen 32 uses the PATIENT'S own left/right. Face-forward pictures are mirrored

Heads Up — Quiz Move — For every local sign: color/shape → thermal nature → excess/deficiency → organ/channel → one confirming symptom.

12 · Constitutional Types (Flagged)
Heads Up — Scope conflict: Prof. Lao's recorded lecture says "Nothing on the body constitutions" will be tested. Prof. Schrier's own deck devotes ~9/41 slides to it. Confirm with him which governs the quiz. Full Five-Element and Weak/Strong Constitution tables are in the Study Guide, Section 14 — skip memorizing them here unless he confirms it's tested.
